Sing, Jennifer Pulta

sing.jenniferp@gmail.com | +65 8840 0730 | LinkedIn | Github

Master's student in Enterprise Business Analytics (NUS), ASEAN Merit Scholar. Skilled in predictive modeling, machine learning, data visualization, and business analytics. **Seeking an Internship (15 Mar – 06 Aug 2027) or future full-time opportunities in data science, machine learning, and analytics.**

Education

National University of Singapore
Master of Technology in Enterprise Business Analytics
ASEAN Merit Study Award Recipient

De La Salle University
Bachelor of Science in Computer Science (Major: Software Technology)
Cum Laude (GPA: 3.461 out of 4.0)
DOST-SEI Merit Scholar

Awards & Achievements

- Data for Life 2026, Finalist (Top 30 Teams)
- Google Anita Borg Memorial Finalist
- 1st Place:Teknobiz Idea Challenge Mobile Category (Group)

Skills and Certifications

- **Analytics & Programming:** Python (Pandas, NumPy, Scikit-learn), SQL (MySQL, PostgreSQL), MongoDB, Java
- **Business Intelligence & Visualization:** Power BI, Tableau, Advanced Excel
- **Machine Learning & Statistics:** Multiple Linear Regression, Decision Trees, Random Forest, XGBoost, Feature Engineering, Model Evaluation, K-Means Clustering, Hypothesis Testing, Confidence Intervals, One-Way &Two-Way ANOVA
- **Data Engineering & MLOps:** MLflow, Data Warehousing (Star Schema), AWS
- **Digital Marketing Analytics:** SEO/AEO, PPC Analytics, Google Ads, Meta Ads, HubSpot, Marketing Automation
- **Languages:** English (Native), Filipino (Native), Spanish (DELE A2 Certified)

Work Experience

Software Development (4 years)
IT Specialist | Lenamed Corporation
Philippines | Jul 2019 - Sep 2023

- Developed eCommerce store, internal CMS, and payroll system (Java, SQL).
- Applied data-driven solutions for FMCG clients, including lead generation via Meta Ads.

Analytics & Marketing (5+ years)
Marketing Executive | Aeroviation Pte Ltd
Singapore | Sep 2024 - Nov 2026

- Audited and consolidated campaign data across Google Analytics, Meta Ads, and TikTok Insights in Excel to audit multi-channel performance.
- Conducted A/B testing and persona targeting, reducing Cost Per Lead (CPL) from SGD 15–17 to SGD 4–8 (50–75% reduction) while maintaining lead quality.
- Established a repeatable, data-driven decision framework adopted across subsequent marketing campaigns.

Client Servicing & Operations | Have Halal, Will Travel (Hello Travel Pte Ltd)
Singapore | Aug 2024 - Jan 2026

- Analyzed campaign performance data, delivering predictive insights to executives.
- Coordinated cross-functionally with design, content, and external teams.

Project Manager & Account Manager | Nimble Marketing Consultancy (Nimble Pte Ltd)
Singapore | Jun 2024 - Oct 2025

- Managed multiple client engagements, aligning execution with data-driven strategies.
- Cultivated strong partner relationships and drove measurable business growth.

Social Media Marketing Manager | Project Fab Aesthetic & Skin Care Inc
Philippines | Jun 2022 - Jun 2024

- Generated analytics reports for Facebook/Instagram campaigns.
- Achieved 89.6% client acquisition via social media (Q4 2023).

Academic Data Analytics, Predictive Modelling & Machine Learning Projects

Predictive Financial Modeling & Driver Analysis (FDIC Financial Data)

- Processed 83K+ FDIC banking records and built MySQL star-schema data pipelines.
- Developed Multiple Linear Regression, Random Forest, and XGBoost models to forecast operating efficiency.
- Applied SHAP explainability and achieved 2.7x-4.7x early-warning detection lift over baseline methods.

Spatial & Diagnostic Policy Analytics (NYC Congestion Relief Zone Study)

- Analyzed 600M+ NYC TLC rideshare records to evaluate the impact of congestion pricing on driver earnings and operations.
- Applied Nested OLS Regression, One-Way & Two-Way ANOVA, and Tukey HSD testing to isolate earnings effects and identify statistically significant differences across zones and time windows.
- Segmented 256 taxi zones using K-Means Clustering and developed a Power BI dashboard to support operational decision-making.

MLOps & Demand Forecasting (Capital Bikeshare MLflow Pipeline)

- Designed end-to-end bike-share rental demand prediction pipeline using weather, temporal, and seasonal features.
- Structured experiment tracking, hyperparameter tuning, metric evaluation (RMSE, MAE), and artifact logging using MLflow.
- Packaged model artifacts and dependencies for reproducible model tracking and lifecycle management.
